About me

I love facilitating processes, experiencing new challenges, and learning about them. In fact, the learning path for me is like the adventurous path of a climber who wants to conquer the peaks one after another. Also, I love cheesecake. Caffeine is my drug and I believe in Aliens.

Work Experience

Oben Origin

Tehran, Iran
October 2019 Until now

Co-Founder

Asiatech

Tehran, Iran
September 2018 to June 2019

UI Engineer

As a user interface (UI) engineer i design (user experience and user interface) and develops the front end of these.

I did the redesign of Asiatech E-CARE's interface and development. I've designed the Asiatech app user interface and user experience. My latest work on Asiatech was SSO's interface design and development.
